

## Teacher Directed Courses – Grades 1-9

The instructional mode for Elementary and Junior High Students in Grades 1 through 9 is online, with some subjects being offered onsite at our Calgary school location. Onsite courses are available only in the greater Calgary area.

The recommended percentage of time allocation is used as a guide for program planning. Alberta Education requires that students in grades 1 through 9 have access to at least 950 instructional hours per school year in fully teacher directed programs.

### Grades 1-2
